ANESTHESIA FOR SURGERY CONSENT FORM

The health and safety of your pet is our foremost concern. If your pet is to be anesthetized, rest assured that advances in anesthesia and surgery have made routine procedures relatively safe, with a low rate of complications. Nevertheless, occasional problems can arise due to pre-existing conditions not evident during routine pre-anesthetic examinations. To avoid these problems we will run a pre-surgical blood panel before surgery to assess your pet's major organ functions. Depending upon the results we may adjust the dose or type of anesthetic used or advise delaying the surgery.

A Pre-Anesthesia Panel will be performed on your pet if under 8 years of age.

A General Health Profile will be performed on your pet if over 8 years of age.

A Heartworm test will be performed on your pet if not current on heartworm preventative.

**** All animals admitted will be current on their vaccinations and will be free of external parasites and if not will be treated at the owner's expense**.**

While your pet is anesthetized would you like any additional procedures completed such as: Teeth Cleaning, Ear Cleaning, Mass/Growth Removal, Microchip

As the pet's owner, I authorize Pet Health Center to use all reasonable precaution against injury, escape or death of my pet. I understand that all anesthesia involves some risk to my pet, but you will not be held liable or responsible in any manner whatever or under circumstances in connection therewith as it is thoroughly understood that I assume all risks. I have read the foregoing and agree.
